

Model Laravel — Subscription

Documentação técnica do model conforme padrão definido no MVP.

Implementação

```
class Subscription extends Model
{
    use SoftDeletes;

    protected $fillable = ['client_id', 'site_id', 'status', 'started_at', 'ended_at'];

    protected $dates = ['started_at', 'ended_at'];

    public function client(){ return $this->belongsTo(Client::class); }
    public function site(){ return $this->belongsTo(Site::class); }
    public function payments(){ return $this->hasMany(Payment::class); }
}
```
